Who do I place a complaint with when they are not watering down the construction site and creating a huge mess with no regard for neighbors?

Hello,

My windows were rattling when they tore down a structure that backs up to my house. I just spent thousands of dollars to replace my back window to enjoy the beautiful view and now I am informed that they will be building a 64 unit complex backing to my home. This will destroy everything I have worked for...the peace and tranquility of owning a little peice of property in this city. I can't believe you are letting an outsider come in and destroy the peace that my neighbors and I have worked so hard for.

How can I contest this? If this causes my shop to flood in the winter due to erosion then who will be responsible?
