

Just a short update for you this week ending 7/2/20. The LOC weekly Conference Call was canceled for this week so nothing to summarize there for you.

Public Works Department:

Parks & Facilities Division:

- A contractor will be performing some mowing and brush clearing in the lower portion of Wallace House Park in the next week or so. This work should help deter some of the homeless camping issues in this area of the park.

Environmental & Technical Division:

- The SWAC meets next Tuesday July 7th 2020.

Street/Stormwater Operations Division:

- The Shoreline Dr. and Cummings Ln. storm drain contractor has completed the main line pipe installation on Shoreline.
- The River Road resurfacing project is scheduled to begin work the night of Wednesday July 8th performing some road base repairs and lowering manholes and is expected to take 3 nights. The grinding and paving is scheduled to begin the week of July 13th.
- The traffic signal at Lockhaven and River Road will be operating in “recall” mode until next week. A problem with some of the conduits was discovered last night while the contractor for the ADA ramp project was performing updates to this signal.
