

Cover & Contain Materials

Cover

Ensure chemicals, oils and pesticides are kept in a covered area like a shed or garage or in a sealed container with lid.

Use a tarp to cover piles of soil and bark delivery in wet weather.

Contain

Keep chemicals, oils and pesticides in sealed containers and use only according to instructions.

Always have soil and bark deliveries placed in driveway or a landscaped area vs. street.

Wash paint brushes and supplies in the sink using lots of water.

When pressure washing put an old towel or broom in the curblineline to keep debris from entering the storm drain.

Dispose properly

Use the [Curbside Collection App](#) to see where you can dispose of chemicals, paints, batteries and more.

Accidents happen!

Report spills on our [website](#) or call during business hours: 503-856-3561 and after hours: 503-393-1608
